

Web Design Final Project Content

Mid/Final project website ideation:

- Start to think what you are going to build for your website (Mid/Final project)
- Start working on the content

Gather and **presents** 3 examples.

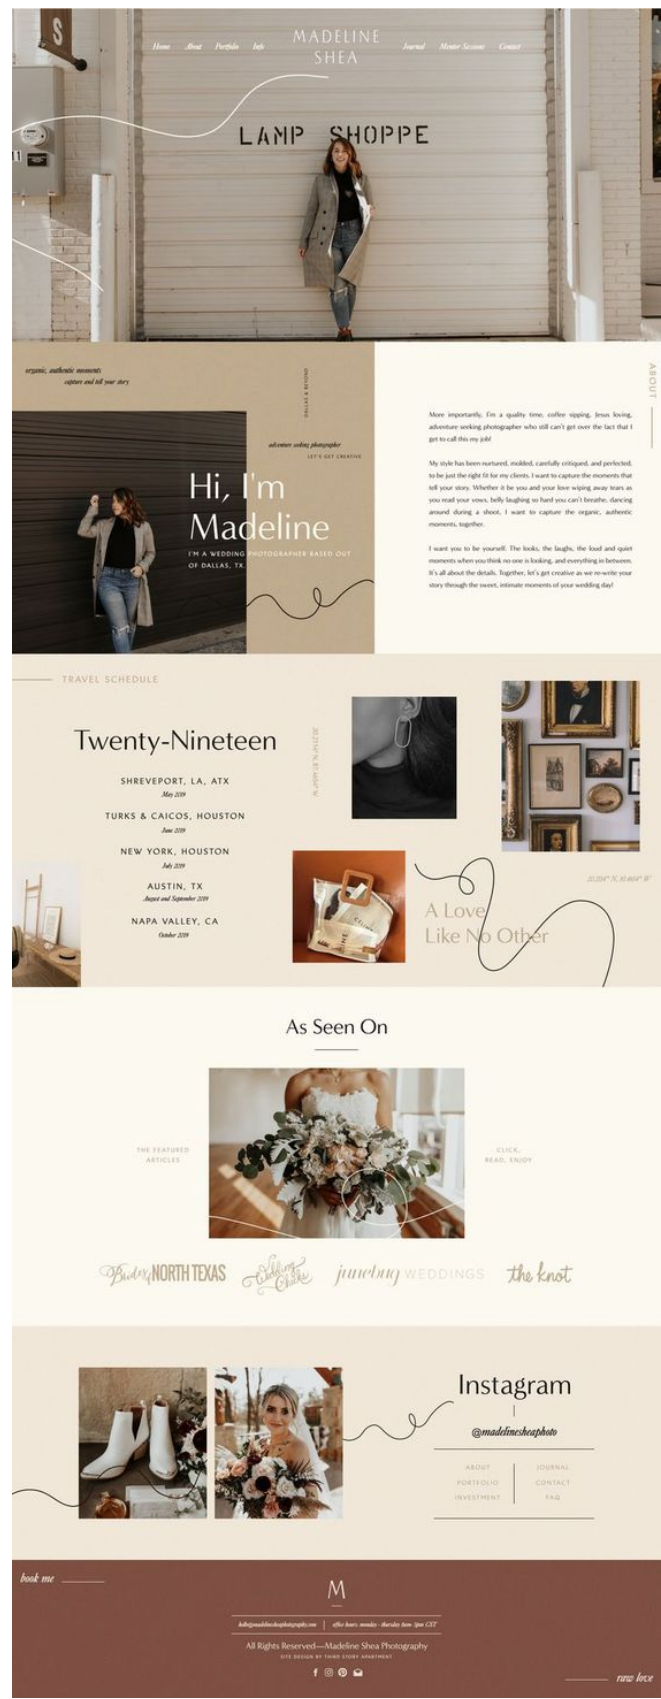

What:

Final project website would be a professional portfolio website. Since I had background in interior design and currently studying graphic design, I would use this chance to incorporate both of the studies altogether, showcasing my work from the past in interior design field and recent projects around graphic design.

Content:

- Home page with links to: about me, cv/resume link, pinterest and contact details (how to reach me), work (interior design & graphic design).
- Sharing the personalities throughout the work and showing the interest I have outside the graphic and interior design, perhaps something relates to my hobbies (watch movies, traveling, shopping, etc)
- Set the theme color and logo of the website
- Theme of the website: fun and playful, reflecting my works, easy to access and straightforward
- About Me
 - Short written bio
 - Photograph of myself
- Cv/Resume link
- Pinterest and other social media to connect and contact details (logo at the bottom linked to the account)
- Work
 - Interior design
 - Short written explanation on each project
 - Images of the work
 - Graphic design
 - Short written explanation on each project
 - Images of the work
 - Additional work
 - Photography
 - Illustration drawings
